SUBJECT : REVISED PROPOSAL FOR RECONDITIONING OF YOUR EFFLUENT TREATMENT PLANT OF YOUR COMPANY AT BHIWADI SITE.

Dear Sir,

We are thankful to you for giving us the opportunity to visit your company for the reconditioning of your Effluent Treatment Plant which was not operational since last so many months.

I along with one of our technical expert visited your site on 12TH May, 2022 & physically saw the Effluent treatment plant and notices that lot many items which are used for the proper operation of the plants are missing from the site. The plant & machineries & the relevant pipe line structure found badly corroded & most of the items are either to be replaced or require reconditioning from the original equipment manufacturer to function it properly.

Based on our visit & finding the condition of the plant, for us it's a big task to reconditioned it & make it proper operational.

Making new plant & supply to customer is quiet easy for us since its our day in day out job but getting the old plant which is such in bad shape requires lot of manpower & skill of expert technicians.

We after having in depth thought & access the condition of plant and machineries of your Effluent Treatment plant we are hereunder giving our best quote & very confident that if given a chance for getting this plant operational, we can demonstrate our skill by make it operational & prove to show you the desired results as per the pollution board guidelines.

Delhi Environmental Services is in the manufacture of ecological wastewater treatment products for both commercial and domestic and export markets. Our range of quality products provides, fast installation, require minimal maintenance and are low impact with an extremely small footprint. They also exceed all present and proposed discharge standards enforced by the State Pollution Boards.

We hope you will find our proposal in line with your requirement. In case you desire any clarification, please contact the undersigned.

We are waiting for your valuable order and to get associated with your esteemed organization.

With best regards,
For, Delhi Environmental Services
R K Gupta
