OUR OFFER NO : CCB40-17012022-SRK

All cables are designed to withstand 4 million cycles (in case of PVC outer jacket) and 7 million cycles (in case of PUR outer jacket), resist any kind of corkscrewing and withstand any bending at a radius of 7.5 times the cable outer diameter. The outer jacket material shall be polyvinyl chloride (PVC) or poly urethane (PUR) to withstand an abrasion and glide smoothly during the movement of the chain. It remains highly flexible in a wide range of ambient temperature.
