Sh.DS.

As per last visit of VCMD Sir he was instructed to make a video of the full plant after discussing with Mr.Abhishek Mishra . I have discussed with Mr.Abhishek and he has told us we have to make a video of the full plant now and next time when renovation of the full plant will be over. After making this video we will know the difference between the present position of the plant and the after renovation position of the plant. I have called the professional photographer who has called during our recent functions at the plant and he has taken our plant photos through a drone. Mr. Sanjeev of M/s Sagar Photo Studio has quoted Rs.30000/- for this job and after discussion he has agreed for Rs.10000/- for this job and he has made video of the entire plant including family auters, main gate, canteen, bachelors quarters etc. He will start the work from 14.02.22.

The above is for your information and approval please.

Warm Regards

Aman Dadwal

Dear Amanji,

On the subject, I am still in talks with the production company and will connect with you at the correct time.

Meanwhile, it will be helpful if you can share a rough plan of the major upcoming changes that we will be doing at the Bhiwadi plant. We are targeting to capture the transformation (before and after) of the plant from its current status over the next 1.5 to 2 years.
