1. 05280027
 Hydraulic Low-Profile Torque Wrench, **Model No.: TW8L.**
 Torque Range: 1094-10941 Nm, Nut Size (mm): 41 - 95.

Quantity: 1 Number. Price: Rs.2,15,200/- Each Number.

Features of TORQTON 'TW_L' Series Torque Wrench:

1. A Highly strengthened Aluminum-Titanium alloy body makes the tool lighter and durable.
2. The Low-Profile design makes it perfect for compact low clearance areas.
3. Hexagon cassette can be changed without using any special tool.
4. 360° x 180° hose swivel fitting enables operating the tool from any angle in confined areas, thus increases wrench maneuverability & eliminates hose kinking.
5. Unibody drive unit with a repeat accuracy of +/-3%.
6. Anti-lock drive pawl, torsion resistant housing, quick-torque lever design makes the operation significantly faster.
7. All wrenches are fitted with bronze bushings to ensure the ratchet would not seize in the side plates, ensuring better operating time and lower repair costs.
8. In-line reaction pad ensures accuracy by reducing interval deflections.
9. Includes robust handle for extra maneuverability and safety of hose joints.

1. 05280027
 Hydraulic Square Drive Torque Wrench, **Model No.: TW8S.**
 Torque Range: 1078 - 10780 Nm, Bolt Size (mm): 30-64, Square Drive: 1-1/2.

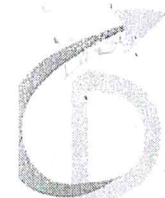

Quantity: 1 Number. Price: Rs.2,43,100/- Each Number.

Features of TORQTON 'TW_S' Series Torque Wrench:

1. Parts are precisely machined to increase accuracy, durability and stability of the equipment.
2. Tool is coated to resist corrosion.
3. 360° x 180° hose swivel fitting enables operating the tool from any angle, thus increases wrench maneuverability & eliminates hose kinking.
4. Unibody design with a tested & calibrated accuracy of +/-3%.
5. A Highly strengthened Aluminum-Titanium alloy body makes the tool lighter and durable.
6. Fine tooth ratchet prevents tool lock-on.
7. 360° multiposition, click-on reaction arm fits on any support.
8. Push button reversal of square drive for quick tightening or loosening.
9. Anti-reverse pawl designed for preventing ratchet return to maintain required torque.
10. Includes robust handle for extra maneuverability and safety of hose joints.

2. Hydraulic Torque Wrench Pump, **Model No.: PE80TW2.**

Oil Capacity: 8 l, Drive: Electric, Flow Rate: Low Stage: 7 l/min; Mid Stage: 1.6 l/min; Low Stage: 0.8 l/min, Number of Wrenches: 2, Motor: 220V; 50 Hz; Power: 1.1 KW, with in-Built Pressure Gauge.

Along With:

- 1) 10 Feet Long, Hydraulic Twin Hose, fitted with Torque Wrench Coupler, Model No.: H1110.

Quantity: 1 Set.

Price: Rs.2,98,100/- Each Set.

Features of TORQTON 'PE_TW' Series Torque Wrench Pump:

1. Working pressure is 40 - 700 BAR, providing a wide range of achievable torque.
2. Fully adjustable and lockable pressure valve. Allows you to set the pressure to achieve the right amount of torque.
3. High efficiency TEFC induction motor starts under the toughest loads.
4. Pump is fitted with an In-Built Oil Cooler & Motor Cooler. This increases the productivity of the tool, as the pump can run continuously for extended durations.
5. High strength, light weight, Titanium-Aluminum Alloy makes this pump extremely portable.
6. Remote Control Pendant for easy operation.
7. Easy to read pressure gauge helps to keep the desired pressure to obtain accurate torque.
8. Oil level indicator is inbuilt on most models to keep track of oil level in the pumps reservoir.

Advantages of procuring from **Chindalia Distributors:**

1. Over 3 decades of expertise.
2. Technically trained team of service engineers.
3. Assured spares availability for a minimum of 5 year.
4. Ready stock of maximum spares parts.
5. We undertake maintenance contracts for Hydraulic Tools.
6. One Site Service available for quoted models.
7. Capability to attend emergency service requirement within 24 to 48 hours.
8. We provide tools & manpower on rental basis.
9. We closely work with the manufacturers to provide application-based products.
10. ISO 9001 Certified Company.
