For 28/10/23

We have received requirement of procurement of above dies. As per the price list submitted by all the die manufacturers and after comparison we found inhouse cost for the highlighted sections are lowest but technic capacity for making dies inhouse. Above dies are required for regular presses and up-coming new presses also. But after comparison of our regular outsider die manufacturing vendors

** Since other section die rate is lower than our inhouse cost and out of 54 section only 4 ma section die rate is little bit high. We have to consider this and place order to M/s Candour only.*
