#### COMPANY PROFILE

KITO is recognized worldwide as a leading manufacturer of Material Handling Equipment for lifting, moving or immobilization. KITO chain hoists, lever hoists, wire rope hoists and cranes are highly regarded in Japan, Asia, North America, Europe and Beyond. The company's tireless efforts to improve the safety and productivity of its products are appreciated by a truly global range of satisfied customers.

Armsel KITO is a 100% subsidiary of KITO Corporation since 2010. The company traces its presence in lifting solutions for industries since 1974. The company's expertise is evident at all stages of serving the customer; from devising solutions and development of new products to providing operation maintenance. The guiding principle of manufacturing for Armsel KITO is to exceed customer expectation.

**Assurance through Safety:** Hoists and Cranes are often used under potentially hazardous conditions, making maximum safety an absolute prerequisite in the design and manufacture of such equipment. Customers can use KITO products with assurance, thanks to the company's stringent systems for confirming safety and quality. The assurance of safety is how KITO exceeds customer expectation and delivers total satisfaction.

**Exceeding Expectations**

**– A KITO Tradition.**
