Dear Sir,

Subject: Offer for Consultancy of Sewerage network + Storm network of Jindal factory at bhiwadi in 25acres.

With reference to our meeting held at your site, our proposal for providing above mentioned consultancy for your project is hereunder mentioned. The scope of services to be provided under the consultancy contracts, professional fees & terms of payment are given below: -

Requirement

1. Existing architectural drawing of all buildings and site
2. The site levels of road, plinth, landscape areas.
3. Existing shade terrace run-off is already decided as the shed is being erected. So need the rain fall intensity.

Our Scope of works shall be as follows:

Stage – I Preparing Concept level drawings

- a) As per road level, plinth level, building run-off, we will do create a basic drawing to understand how the storm water management will be done.
- b) Same will be sent to you for review and comments.
- c) We will change and incorporate the comments and this concept level. Same will be sent to you for verify in soft copy.

Stage – II Preparing Design and Tender Stage

- a) In this stage, we will do calculation as per given rain water intensity (of being constructed shed) for finding drain width and depth.
- b) The same calculation will be submitted to you as GFC.
- c) After confirmation on this we will prepare the Tender for contractor awarding.

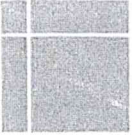

Stage – III Construction Stage

The Consultant shall render the following services.

- a) Contractor shall furnish all shop drawings.
- b) Verification of Contractors shop drawings and recommending for execution.

By en-large we provide services under our consultancy

- Concept drawing
