Oval Aluminum tubes data sheet 18-11-2019.pdf;

Dear Vipeel

Please find the attached drawing and below customer details and provide quotation accordingly.

Kindly find the drawing and requirement:

Enclosed please find the drawing of the oval profile.

Material : Aluminum Alloy 6061-T6

Finish : Anodizing E6/ EV1 10~12 µm

Annual Requirement : 60,000 Kgs.

Kindly quote your best offer: tooling development cost. Extrusion Cost Per Kg. Lead time to develop sample.

Lead time for Production lot after acceptance of sample.

Finish on surface should be smooth.

If you already make the anodized tube or profile, kindly send one/ two - examples to check the surface finish quality.

Kindly get us the quotes from Jindal Aluminum or any other supplier who can provide quality extrusion.

Regards

Amit Pandey
