Dear Sir,

Please provide your feedback for following remarks:-

1. All dimension tolerances must strictly comply with the attached drawings and as per **standard EN 755-9** (*European standard*)- **Accepted by Toolshop team**
2. The material for each profile should be **virgin** confirming to **EN AW-6082 T6** (mill finished). – _____
3. The **BHN required is minimum 97**:- _____
4. **Transition regions, where pressed bars are continuously joined, must be cut out to avoid segments with jointing or extrusion faults**:- _____

Regards

Parvesh Sharma

Subject: New Requirement of profiles

Dear Mr. R. P. Singh,

Please find below our requirements for two types of aluminium profiles (refer to the attached drawings) and 3D models :

- All tolerances must strictly comply with the attached drawings and as per **standard EN 755-9** (*European standard*)
- The material for each profile should be **virgin** confirming to **EN AW-6082 T6** (**mill finished**).
- The **BHN required is minimum 97**
- **Material certificates will be required with every delivery.**
- **Transition regions, where pressed bars are continuously joined, must be cut out to avoid segments with jointing or extrusion faults.**
- Before starting production we will **need to get the drawings and samples approved.**

You are requested to quote your best price considering these are going to be regular quantities and lead time for these profiles and confirming all above requirements

Please feel free to reach out for any clarifications.

Best regards

Vishal Dhir
